

**About Us:**

Family owned and operated since 1960, we here at House of Berggren have been delivering only the finest salon services to the Duneland community. We strive to bring you only the best products available and our highly trained staff is here to fulfill all of your beauty needs.

**About Our Services:**

**Microdermabrasion:**

This process gently exfoliates the skin to help minimize fine lines and wrinkles, helps reduce the effects of sun damage and acne scarring and to help minimize pore size and other skin imperfections while stimulating the production of new and healthy skin cells.

**Paraffin Wax Treatment:**

This relaxing treatment quickly moisturizes dry skin. Since 1962, physicians, physical therapists, and arthritis specialists have recommended Paraffin treatments because it's a soothing, fast acting heat relief of minor aches and pains.

Specially Created for House of Berggren
